**Subject:** RE: Maquoketa Assessment Application

Good morning Shelly,

Thanks for reaching out, this is good to know. No, there is no deadline regarding submitting the TBA application. However, something to keep in mind is that our TBA contract ends September 30, 2023 so all work needs to be completed by then.

Let me get back to you regarding mentioning EPA brownfields conducting the groundwater assessment. I will connect with the more experienced Brownfields team members on how to frame this and get back to you. I have had minimal communication with the City since this is a complicated situation and this is not a typical TBA project.

I will get back to you soon,

Lisa Dunning

Lisa,  
I have set-up a meeting with the City of Maquoketa for July 14th. Do you have a deadline for them renewing their application? Also, are you comfortable with me mentioning the possibility of EPA Brownfields doing the groundwater assessment during our meeting? I wasn't sure how much discussion you've had with the City.  
Thanks,

Good morning Shelly,

No, I just checked my various email folders and have not received a response from Mallory or anyone else from the City of Maquoketa as far as I can tell. I will let you know if I receive an email.

Thank you for the email you sent on Monday as well. It is a confusing situation and I will stay tuned.

Sincerely,

Lisa Dunning

**Subject:** Maquoketa Assessment Application

Lisa,

Have you gotten an interest from Maquoketa on the Brownfield Assessment application you sent them?

Thanks,
